NATIONAL SUGAR INSTITUTE

Organizes

NATIONAL WEBINAR

on

DIFFUSERS IN CANE SUGAR INDUSTRY

17th September 2021

11:00 Hours (IST) onwards

About the webinar

At present, Indian Sugar factories employ milling techniques for extracting juice from sugarcane. Although there are couple of factories which use Diffusers for the purpose but the technology has not become popular. Otherwise in many other countries it is widely practiced with many of its claimed advantages over milling technology. To discuss all about cane diffusers the webinar is being organized which shall be addressed by Indian & overseas experts
